Luffy, Tony Tony Chopper, Roronoa Zoro, Sanji, Franky, Usopp, Nico Robin, Brook, and Jimbei. The One Piece manga and anime feature an extensive cast of characters created by Eiichiro Oda. The series takes place in a fictional universe where vast numbers of pirates, soldiers, revolutionaries, and other adventurers fight each other, using various superhuman and supernatural abilities. The majority of the characters are human, but the cast also includes dwarfs, giants, mermen and mermaids, fishmen[a], sky people, and minks, and many others. Many of the characters possess supernatural abilities gained by eating "Devil Fruits". The series' storyline follows the adventures of a group of pirates as they search for the "One Piece" treasure. Monkey D. Luffy is the series' main protagonist, a young pirate who wishes to succeed Gol D. Roger, the deceased King of the Pirates, by finding his treasure, the "One Piece". Throughout the series, Luffy gathers himself a diverse crew, named the Straw Hat Pirates, including: the three-sword-wielding combatant Roronoa Zoro; the thief and navigator Nami; the cowardly marksman and inventor Usopp; the cook and martial artist Sanji; the anthropomorphic reindeer and doctor Tony Tony Chopper; the archaeologist Nico Robin; the cyborg shipwright Franky; the living skeleton musician Brook; and the fish-man helmsman Jimbei. Together they sail the seas in pursuit of their dreams, encountering other pirates, bounty hunters, criminal organizations, revolutionaries, secret agents and soldiers of the corrupt World Government, and various other friends and foes. Creation and conception Several characters have been stated to be based on actual people such as: Eustass Kid (Eustace the Monk and William Kidd), X. Drake (Sir Francis Drake), Basil Hawkins (Basil Ringrose and John Hawkins), Capone Bege (Al Capone and William Le Sauvage), Jewelry Bonney (Anne Bonny), Urouge (Aruj), and Scratchmen Apoo (Chui A-poo).[ch. 508] The cross dresser Emporio Ivankov is based on Dr. Frank N. Furter and Norio Imamura. Norio had asked Oda to draw more okama (homosexual) characters and became Ivankov's first voice actor.[ch. 570] Oda had created Helmeppo before he created Captain Morgan, Helmeppo's father. Oda originally named Morgan after "Chop", with the character's full title being "Naval Captain Chop" or "Sailor Chop". "Sailor" in Japanese is suihei (水兵), and "Suihei Chop" is a fighting technique used by Giant Baba, a Japanese wrestler. He created several versions of Morgan before settling on the final design. After an editor told him that Morgan, in Oda's words, "looked lame", he changed the design to its final style.[vol. 1:p. 144 (en)] Straw Hat Pirates Jolly Roger of the Straw Hat Pirates The protagonists of the One Piece series are all the members of the Straw Hat Pirates (麦わらの一味, Mugiwara no Ichimi), a crew of ten pirates captained by Monkey D. Luffy. The crew's number increases throughout the series, as Luffy recruits new members. Once Usopp joins the Straw Hat Pirates, they gain their own ship, the Going Merry, which is later destroyed and replaced by a larger and more powerful vessel, the Thousand Sunny created by their shipwright Franky. Two years later, the Straw Hats gain a new fleet, called the Straw Hat Grand Fleet, consisting of 5,640 pirates from seven different crews; Luffy objects to the idea of being a fleet commander, and organizes his new army in a way that they may act independently, but when one crew is in trouble, the others must do what they can to help them. Monkey D. Luffy Main article: Monkey D. Luffy Monkey D. Luffy (モンキー・D・ルフィ, Monkī Dī Rufi) is the primary protagonist of the One Piece series. At age seven, he admires and tries to join the pirates of the "Red Haired" Shanks. Ridiculed and rejected, he inadvertently eats their treasure, the Paramecia-type Gum-Gum Fruit (ゴムゴムの実, Gomu Gomu no Mi), which gives his body the properties of rubber. His reckless efforts ultimately lead him into grave peril causing Shanks to lose an arm while rescuing him. After this, Luffy gives up on joining Shanks, resolving instead to start a crew of his own and become King of the Pirates.[ch. 1] Displeased by Shanks spoiling his grandson, Garp takes Luffy to be raised by Curly Dadan and her mountain bandits, who he strong-arms into taking him in. During Luffy's time there, he becomes a sworn brother with Ace, Garp's other ward, and Sabo, a local runaway noble.[ch. 582–589] Ten years later, and still wearing Shanks' treasured head covering, Luffy forms and captains his own pirate crew called The Straw Hat Pirates and sets sail for the Grand Line, quickly gaining infamy as "Straw Hat" Luffy (麦わらのルフィ, Mugiwara no Rufi).[ch. 2, 7, 96, 98] Eventually, after his strength proves insufficient to save Ace from execution, he spends two years on a secluded island, learning the use of the three colors of Haki as well as his rubber ability's fourth Gear from Silvers Rayleigh, before heading to the New World.[ch. 590–602] Due to his infamy, he is one of the pirates who are known as "The Worst Generation". Luffy is voiced by Mayumi Tanaka in the anime series.[1] In the 4Kids Entertainment English adaptation, he is voiced by Erica Schroeder.[2] In the Funimation Entertainment English adaptation, his voice is supplied by Colleen Clinkenbeard.[3] Roronoa Zoro Main article: Roronoa Zoro Roronoa Zoro (ロロノア・ゾロ) is a swordsman who uses up to three swords simultaneously, holding one in each hand and a third in his mouth.[ch. 3, 5, 28] To fulfill a promise to Kuina, his deceased childhood friend and rival, he aims to defeat "Hawk Eye" Mihawk and become the world's greatest swordsman.[ch. 5, 50] Traveling the seas in search of Mihawk and making a living as a bounty hunter, he becomes infamously known as "Pirate Hunter" Zoro (海賊狩りのゾロ, Kaizoku-Gari no Zoro). Eventually, he comes into conflict with Helmeppo, the spoiled son of a navy officer. To prevent the harm of innocent civilians, Zoro allows himself to be incarcerated temporarily, while Helmeppo plots to have him killed. Zoro is saved from execution by Luffy in exchange for becoming his first crewman. At that point, Zoro makes it clear that he would turn on his captain if he ever stepped between him and his dream.[ch. 2–6] However, Zoro grows fond of his crew and after several defeats in their defense, his priorities change and he convinces Mihawk to take him on as a student.[ch. 51f., 485, 597] He is known for his awful sense of direction and constantly gets lost when traveling. In the anime television series, his voice actor is Kazuya Nakai.[1] In the 4Kids English adaptation, his name is spelled Roronoa Zolo, and he is voiced by Marc Diraison.[2] The VIZ media also calls him "Zolo". In the Funimation English adaptation, his voice is supplied by Christopher Sabat.[3] Nami Main article: Nami (One Piece) Adopted and raised by navy seaman turned tangerine farmer Belle-Mère, Nami (ナミ) witness their mother being murdered by the infamous Arlong, whose pirate gang occupies their island and extracts tribute from the population. Striking a deal with him, Nami, still a child, but already an accomplished cartographer who dreams of drawing a complete map of the world, joins the pirates, hoping to buy freedom for her village eventually. Growing up as a pirate-hating pirate drawing maps for Arlong and stealing treasure from other pirates, Nami becomes an excellent burglar, pickpocket, and navigator with an exceptional ability to forecast weather.[ch. 77, 95, 130] After Arlong betrays her, and he and his gang are defeated by the Straw Hat Pirates, Nami joins them in pursuit of her dream and acquires infamy herself as "Cat Burglar" Nami (泥棒猫のナミ, Dorobō Neko no Nami).[ch. 94f., 435] In the anime television series, Nami is voiced by Akemi Okamura.[4] In the 4Kids English adaptation, she is voiced by Kerry Williams.[5] In the Funimation English adaptation, her voice is provided by Luci Christian.[6] Usopp During his early childhood, Usopp (ウソップ, Usoppu) is abandoned by his father, Yasopp, who leaves to join the Red-Haired Pirates. As his mother, Bachina, falls ill, Usopp starts telling tall tales, expressing his hope that his father will return and take them out to sea. Even after his mother dies, Usopp does not blame his father for leaving. Despite his cowardly disposition, he strives to become a great pirate.[ch. 25, 41] Usopp is recognizable for his long nose, a reference to the fact that he tends to lie a lot. He is a gifted inventor, painter, and sculptor.[ch. 42, 106, 190] In combat, he relies primarily on slingshots to fire various kinds of ammunition with great precision in coordination with a set of lies and other weapons giving him a unique fighting style named "The Usopp Arsenal".[ch. 332] To help the Straw Hats rescue Nico Robin, he achieves notoriety under his alter-ego "Sniper King, the King of Snipers" (狙撃の王様そげキング, Sogeki no Ō-sama Sogekingu), a hero sniper wearing a golden mask and cape. Eventually, after helping the Straw Hats liberate Dressrosa from Don Quixote Doflamingo's rule, he becomes infamous as "God" Usopp.[ch. 435] In the anime series, his voice actor is Kappei Yamaguchi.[1] Jason Griffith and Sonny Strait provide his voice in the 4Kids and Funimation English adaptations, respectively.[3][7] Sanji Born as a prince of Germa Kingdom, Vinsmoke Sanji (ヴィンスモーク・サンジ, Vinsumōku Sanji) is routinely ridiculed by his genetically enhanced siblings and is locked away by his father Judge for being a disgrace. With help from his sister Reiju, he escapes and flees Germa, a floating kingdom composed of several ships, after it enters the East Blue and his father permits it. While serving as an apprentice cook on a passenger ship, nine-year-old Sanji stands up to a boarding party of pirates led by the infamous "Red Foot" Zeff. During the encounter, Sanji is swept into the sea by a massive wave. Zeff jumps in after him because of their common dream of finding the All Blue (オールブルー, Ōru Burū), a legendary area where the East, West, North, and South Blue seas meet, containing every kind of fish in the world. While castaways together, the pirate saves Sanji's life yet again by giving him all of their food. After their eventual rescue, Sanji stays with Zeff for several years and helps him build a floating restaurant, the Baratie (バラティエ). Zeff in turn makes him a first-rate cook and teaches him his kick-based fighting style.[ch. 56–59] Mirroring Zeff, Sanji will never refuse a starving person a meal, and he uses only his legs when fighting to protect the hands he needs for cooking.[ch. 48, 370] He has a weakness for women and makes it a principle never to harm one, even if it means his death.[ch. 403] Eventually, he becomes infamous as "Black Leg" Sanji (黒脚のサンジ, Kuro Ashi no Sanji).[ch. 435] While training for a period of two years in Emporio Ivankov's Kamabakka Queendom (カマバッカ王国, Kamabakka Ōkoku), he develops the Sky Walk (空中歩行 (スカイ・ウォーク), Sukai Wōku), a variant of the Six Powers (六式, Rokushiki) technique Moonwalk (月歩, Geppo), which allows him to essentially run through air.[ch. 635] Sanji receives his own Raid Suit from his family that grants him the ability to turn invisible.[ch. 903] Sanji's standard appearance is wearing a well-fitting black suit with a skinny black tie. His hair always covers one of his eyes and he is usually smoking a cigarette. In the Japanese anime television series, he is voiced by Hiroaki Hirata.[8] In the 4Kids English adaptation, he is voiced by David Moo.[9] In the Funimation English adaptation, his voice is supplied by Eric Vale.[3] Tony Tony Chopper Tony Tony Chopper (トニートニー・チョッパー, Tonī Tonī Choppā) is a doctor and a blue-nosed reindeer. The power of the Zoan-type Human-Human Fruit (ヒトヒトの実, Hito Hito no Mi) provides him with the ability to transform into a full-sized reindeer or a reindeer-human hybrid.[ch. 140] A self-developed drug he calls Rumble Ball (ランブル・ボール, Ranburu Bōru) enables him to perform even more transformations for three minutes.[ch. 149] With help from Caesar Clown, Chopper can last in his transformations for about 30 minutes.[ch. 1014] Rejected by his herd because of his blue nose and eating the Devil Fruit, Chopper is rescued by Drum Island's quack doctor Doctor Hiriluk. While developing a potion to create cherry blossoms when in contact with snow, Chopper is heartbroken when Hiriluk falls ill with a deadly disease. After Hiriluk's death, Doctor Kureha takes him in as his mentor. After the Straw Hats arrive at Drum Island and take Chopper with them, Kureha uses Hiriluk's potion to turn the snowy sky into cherry blossoms, fulfilling Hiriluk's life mission. When complimented, Chopper acts flustered and sometimes yells at the person who complimented him to stop trying to make him happy.[ch. 140] A running gag within the series is when other characters mistake him as a Tanuki, and he angrily corrects them, pointing out that he is a Tonakai (Japanese for "Reindeer"). His voice actress is Ikue Ōtani.[10] Kazue Ikura voiced Tony Tony Chopper for episodes 254–263.[11] In the 4Kids English adaptation, his voice is supplied by Lisa Ortiz in his brain and walk point and Brian Maillard in his heavy point.[12] In the Funimation dub, Tony Tony Chopper is voiced by Brina Palencia.[13][14] When creating Chopper, Oda wanted a mascot who is both cute and very weak.[15] An IGN review of the manga praised Chopper's character as one of the best in the series and said that he was able to be both touching and funny.[16] With Chopper's back story, Oda wanted to illustrate that one need not be blood-related to be considered family.[17] Nico Robin Main article: Nico Robin Being raised in Ohara (オハラ), home of the world's oldest and largest library, Nico Robin (ニコ・ロビン, Niko Robin) becomes an archaeologist at the age of eight.[ch. 218,391f.] At some point she gains the power of the Paramecia-type Flower-Flower Fruit (ハナハナの実, Hana Hana no Mi), which allows her to have temporary copies of parts of her body, including her eyes and ears, which spring up on surfaces near her.[ch. 170] Behind her teachers' backs, she acquires from them the outlawed knowledge of how to translate the ancient stones called Poneglyphs (歴史の本文 (ポーネグリフ), Pōnegurifu, alt. Poneglyphs), which are scattered around the world. She comes to share their goal of finding the elusive Real Ponegliff (真の歴史の本文 (リオ・ポーネグリフ), Rio Pōnegurifu), which is said to tell the world's lost history.[ch. 218] However, the World Government finds out about these efforts and sends a battlefleet to stop them. Only Robin escapes the devastating attack that claims the lives of the island's entire population, including that of her mother.[ch. 218, 395] Called "Devil Child" (悪魔の子, Akuma no Ko), traumatized, and with a bounty on her head, Robin lives a life on the run, unable to trust anyone.[ch. 218] To survive, she cooperates with various pirates and other outlaws. She eventually joins Sir Crocodile's Baroque Works group, using the codename "Ms. All-Sunday" (ミス・オールサンデー, Misu Ōrusandē)[ch. 398] and becomes their vice-president.[ch. 218] After Baroque Works falls apart, with nowhere else to go, she tags along with the Straw Hat Pirates[ch. 218] and grows so fond of them that she gives herself up to the Government in order to save them. After they discover her real reason for leaving, the Strawhat Pirates declare open war against the Government to get her back. She realizes that she has finally found people who will never sell her out and becomes part of the crew.[ch. 398] Two years later, Robin further hones her Devil Fruit powers to the point she can create a full-bodied duplicate of herself. In the anime television series adaptation of the manga, Robin's voice actress is Yuriko Yamaguchi.[18] In the 4Kids English adaptation, her Baroque Works codename was changed to Miss Sunday and she is voiced by Veronica Taylor.[19] In the Funimation English adaptation, her voice is supplied by Stephanie Young.[20] Franky The son of pirate parents who abandon him at age nine, Cutty Flam (カティ・フラム, Kati Furamu), nicknamed Franky (フランキー, Furankī), is taken in as an apprentice by shipwright Tom, who built Pirate King Gol D Roger's ship Oro Jackson and also secretly holds the plans for a devastating ancient weapon.[ch. 344, 354, 427] Franky's recklessness eventually provides an opportunity for World Government agents seeking these plans.[ch. 356] Attempting to rescue his master, Franky suffers severe injuries and only survives by rebuilding parts of his body using pieces of scrap metal, turning himself into a cola-powered cyborg with strength.[ch. 336, 339, 352, 357f.] After gaining notoriety as "Cyborg" Franky (サイボーグ フランキー, Saibōgu Furankī), and to fulfill his dream of sailing a ship he built around the world, he constructs the Thousand Sunny, a brigantine-rigged sloop-of-war, for the Straw Hat Pirates and joins the crew.[ch. 435–437] In the anime television series, his voice actor is Kazuki Yao.[21] Patrick Seitz provides his voice in the Funimation English adaptation.[22] Brook Already a pirate before the time of Roger, "Humming" Brook (ブルック, Burukku) first enters the Grand Line as a member of the music-themed Rumbar Pirates. Leaving their pet the infant whale Laboon (ラブーン, Rabūn) at Reverse Mountain, they promise to return after sailing around the world.[ch. 487] After losing their captain, "Calico" Yorki (キャラコのヨーキ, Kyarako no Yōki), Brook took over the crew as the new captain. Time later, they are annihilated, but the power of the Paramecia-type Revive-Revive Fruit (ヨミヨミの実, Yomi Yomi no Mi) allows "Dead Bones" Brook to rise again and live a second life as a skeleton.[ch. 443] Fifty years later, Brook's goal is still to fulfill his late crew's promise, and to that end he joins the Straw Hat Pirates.[ch. 459] He is an excellent musician, who says that he can play any instrument, although he is usually seen playing the violin.[ch. 486] Brook can even influence people with his music to the point of making them fall asleep.[ch. 454] While separated from the other Straw Hats, and incognito as "Soul King" Brook, he gains world fame, filling concert halls with fans.[ch. 600] He is also a skilled fencer who uses a shikomizue (a Japanese cane sword) in battle.[ch. 454] His reduced weight allows him to jump extraordinarily high and to run across water.[ch. 443, 493] Eventually, Brook learns how to use his Devil Fruit ability to leave his skeleton body and explore his surroundings as a disembodied soul.[ch. 629] The idea of a skeleton musician was first conceived by Oda in 2000, about the time of Laboon's introduction and more than half a decade before the first appearance of Brook.[23] He is voiced by Chō.[24] Ian Sinclair provides his voice in the Funimation English adaptation. Jimbei Jimbei (ジンベエ, Jinbē) is a yakuza-esque whale shark-type fish-man.[ch. 528] A master of Fish-Man Karate (魚人空手, Gyojin Karate), he is capable of manipulating water as if it were a tangible cloth.[ch. 546] Jimbei can communicate with fish, an ability more usually associated with merfolk, and enlist the help of whale sharks.[ch. 547–549] After growing up in a rough part of Fish-Man Island, Jimbei first joins the island's royal army and later the Sun Pirates; he becomes captain following the death of Fisher Tiger.[ch. 624] In exchange for the World Government granting him Warlord-status and amnesty to the Sun Pirates, Jimbei eventually disbands the crew.[ch. 69] He resigns the position to side against the Government during its war with the Whitebeard Pirates, the protectors of Fish-Man Island.[ch. 557] Two years later, he enlists the help of the Straw Hat Pirates to prevent the New Fish-Man Pirates' coup d'état against Fish-Man Island's royal family. Jimbei then turns down an invitation from Luffy to join his crew, having already aligned with the Big Mom Pirates after the death of Whitebeard.[ch. 649] After cutting ties with Big Mom, he joins the Straw Hat Pirates as the crew's helmsman.[ch. 863][ch. 976] In the Japanese anime television series, Jimbei is initially voiced by Daisuke Gōri, later by Katsuhisa Hōki.[25][26] In the Funimation English adaptation, his voice is supplied by Daniel Baugh. While a junior member of the Roger Pirates, he gets hold of a devil fruit and a treasure map, intending to sell the fruit and search for the treasure, but Shanks accidentally causes him to swallow the fruit and drop the map into the sea, earning Buggy's resentment.[ch. 19, 434] Having consumed the Paramecia-type Chop-Chop Fruit (バラバラの実, Bara Bara no Mi), Buggy can separate his body into levitating parts and control them independently as long as they remain close, and at least one of his feet is on the ground. This ability also makes him immune to cutting attacks which will only separate him into parts.[ch. 526f.] Following the Roger Pirates' dissolution, Buggy becomes captain of the Buggy Pirates and achieves limited notoriety as "Buggy D. Clown" (道化のバギー, Dōke no Bagī).[ch. 9] Eventually his involvement in the first mass breakout of Impel Down, and the Paramount War, earns him a sizable following of escapees and worldwide infamy as "The Genius Jester" (千両道化, Senryō Dōke), and a seat among the Seven Warlords of the Sea.[ch. 549, 700] In the anime series, his voice actor is Shigeru Chiba.[1] In the 4Kids English adaptation, he is voiced by David Wills.[31] In the Funimation English adaptation, his voice is supplied by Mike McFarland.[3] Oda said that Buggy is his favorite antagonist, because of all of them he is the easiest to draw.[32] Buggy has received much praise and criticism. Carl Kimlinger of Anime News Network said that Luffy's fight with Buggy "sets the series' precedent for battles that are simultaneously tense and hilarious".[33] Jacob Hope Chapman of the same site said that seeing Buggy during the Jaya Arc was "entertaining".[34] Bryce Coulter of Mania Entertainment praised Chibi Buggy's Adventure as one of the best arcs, and Buggy for his "slap-stick humour" and "Voltron-esque combining sequence".[35] He was "disappointed" that Buggy, Smoker, and the Strawhats did not have a conflict at sea.[36] On Luffy and Buggy's alliance in Impel Down, Chris Beveridge said, "the two do make an amusing pairing as their flight through the first level goes on". He went on to say, "he never really cared for Buggy", but the Impel Down arc turned him into an "engaging character".[37] He said that he believes that Buggy is being set up as a regular character because he was "afraid he might lose him".[38] Pedro Cortes of Japanator said, "Buggy is always good for a laugh, so his bit was a welcomed respite from the oppressive marines beating down Luffy and the Whitebeard pirates."[39] Galdino Galdino (ギャルディーノ, Gyarudīno), better known under his Baroque Works code name "Mr. 3" (ミスター・スリー, Misutā Surī), is a sculptor with the ability of the Paramecia-type Wax-Wax Fruit (ドルドルの実, Doru Doru no Mi), which allows him to generate and control candle wax.[ch. 120, 532] Following the dissolution of the organization, he was captured and taken to Impel Down, where he joined Buggy to escape, then participated in the Marineford War, and subsequently joined Buggy's crew. He is voiced by Nobuyuki Hiyama in the Japanese version of the franchise. Although he managed to escape, he was defeated again, and after the events on the island he was captured by The Strawhat Shark (Jimbei), who brought him to the surface. After a journey in the New World, he ended up captured by X. Drake and made a prisoner of the Animal Kingdom Pirates. Dracule Mihawk Dracule Mihawk (ジュラキュール・ミホーク, Jurakyūru Mihōku), also called "Hawk-Eye" Mihawk (鷹の目のミホーク, Taka no Me no Mihōku), was one of the Seven Warlords of the Sea, and is recognized as the strongest swordsman in the world.[ch. 50, 52, 69] He is a pale-skinned man who travels in a small boat shaped like a coffin.[ch. 50, ?] His primary weapon is a Grosse Messer, with a black blade called yoru.
